

REMARKS/ARGUMENTS

Reconsideration of this patent application is respectfully requested in view of the foregoing amendments, and the following remarks. Claims 1-3 and 5-8 are in the application. Claim 1 has been amended to include the elements of claim 4, now canceled. No new matter has been added.

The Examiner rejected claims 1-3 and 5-9 under 35 U.S.C. §102 as being anticipated by Lundstedt. The Examiner stated that claim 4 would be allowable if rewritten in independent form. Applicant respectfully traverses.

Applicant has amended claim 1 to include the elements of allowable claim 4, now canceled. All of the remaining claims depend from amended claim 1. Applicant submits that the features of amended claim 1 are not taught or suggested by the cited references. Accordingly, Applicant submits that claims 1-8 are patentable over the cited references, taken either singly or in combination. Early allowance of the claims is respectfully requested.

Respectfully submitted,
JOSEPH ANSCHER - 38
